Powerful iPhone at Lower Battery

Reviewed in India on 19 November 2020

here is my review after 2 days of use

Display:- 4/5

Upgraded from iPhone 7 , it has OLED display that is really very good & FHD . But in sunlight it has been struggling.

Camera:- 4/5

Although it has 2 camera but you will not notice

Battery sucks

Reviewed in India on 13 December 2020

The battery is worst of a kind. In today's scenario when the apps are heavy and consume relatively more battery than 5s, something should have been thought of. Poor show

Powerful iPhone at Lower Battery

Reviewed in India on 19 November 2020

Colour: Blue Size name: 64GB Pattern name: iPhone 12 Mini Verified Purchase

here is my review after 2 days of use

Display:- 4/5

Upgraded from iPhone 7 , it has OLED display that is really very good & FHD . But in sunlight it has been struggling.

Camera:- 4/5

Although it has 2 camera but you will not notice any big difference in daylight. Somewhat differ in Low Light. 2nd camera is for ultrawide

Selfie camera is really very good.

Video:- 5/5 dolby vision hdr is very good , but it is limited to only ur device. Not work for social media post (instagram)

Battery:- 3/5

Attached screen shot 100 to 6 percent

Provide you about 6hr of screen time.

Compact & very light in weight

Using samsung 15 W charger
From 6 to 80 percent it has been taken 66 minute.

Back side glass getting hot while charge and even while using youtube. When use Camera it is super hot. Need to be solve this issue

If you have iPhone 11 then wait for next gen
Not worthy to pay 20-30 extra for only OLED display

Update you more after using it about a week.

Buy iPhone 12 mini if you are looking for secondary phone..

Reviewed in India on 19 November 2020

Colour: Blue Size name: 64GB Pattern name: iPhone 12 Mini **Verified Purchase**

I just say that this phone is awesome.. Small phone.. easy to use and it fit in pocket easily.. I must say one thing if you are confused in iPhone 12 and iPhone 12 mini then if you ll use phone as primary then go for iPhone 12 and if you ll use phone as secondary then go for iPhone 12 mini.. Like my primary phone is OnePlus 8T and secondary is iPhone 12 mini..

And one more thing.. Battery backup is decent.. You can use one day easily if you are not a hard core gamer..

Pocket power horse with battery issues

Reviewed in India on 5 December 2020

Colour: Black Size name: 128GB Pattern name: iPhone 12 Mini

Power packed device in hand. Did lot of research before buying this over 12 pro or 12. Upgraded from 6s 16GB, what a relief. Kept the old device with me as second phone. Skipped amazon this time (for first time) to grab in store HDFC discount. Camera is super awesome. Went for 128GB as 16 GB made me really struggle last 1 year, I have 200 tv cloud also. Plan to keep this one for 5 years at least as the case was with 6s.

Form factor was important for me, as I can't pocket a phone bigger than this. Smaller than 6s and little (1.5 times) thicker. Blue isn't that bad as some reviews said. It's good. Make the 12 standout in this colour, as soon as you pocket out the phone.

It's a power horse, won't regret.

Now the battery, I don't play games, but I use a few apps social media etc for 2-3 hours a day and have to attend a few long phone call and general office battery charged at 100% at 8am, 85% by 10 pm, 45% by 2PM and 15% by 9PM. If it could have pulled 2-3 hours more, it would be more fine. But I am one of those people, who don't watch videos, don't play music, don't play games. I use phone most of the time for productivity, finance payment, messaging apps and news reading apps. So battery is a issue. And it's a size vs battery battle. I think I will have to go for battery replacement after 2 years once the battery charging drops to 88%. It's a

difficult call. Go for it only if form factor matters more for you. If you can handle 12, go for it.

UPDATE: After 10 days of use. Camera is really good. However, battery lasts from 8AM and dies at 6PM. I am regretting why I bought this phone and already called store to buy normal iPhone or Pro with bigger battery.
UPDATE: After 30 days of use. The trade in value was about 60% so I continued with mini. The amazon offers are now better than store ones. I am also restricting to 6 hrs of screen time and it's doing fine.

Defective Phone. Doesn't switch on. Battery not charging. Amazon adding to my agony in replacement

Reviewed in India on 25 January 2021

Colour: Blue Size name: 64GB Pattern name: iPhone 12 Mini Verified Purchase

Phone didn't switch on. Battery is dead completely. I am a loyal I phone user. Didn't expect from Apple to get a defective product.

Adding to my agony, Amazon team is harassing me for replacement. First they need a report from apple team that I phone is defective and when I get that for replacement, Amazon delivery boy wants the phone to start so that he can inspect. There is no coordination between Amazon customer care and delivery team and now the delivery agent took the new phone back without giving me the replacement and I am again chasing Amazon team to send an email to delivery team to pick up the I phone and instruct them that defective phone will not get switched on. Buyers beware. This can happen to you.

Worth it when you love compact than anything!

Reviewed in India on 21 December 2020

Colour: Green Size name: 128GB Pattern name: iPhone 12 Mini Verified Purchase

All in all good phone those who loves compact phones. I have identified few things those who complain about battery life. Try these to improve battery life,

- 1) try mobile data, bluetooth when not needed. With these two being on, I noticed considerable battery drain.
- 2) when you are in remote places, try put it in airplane mode. This keeps phone searching for the network all the time and drains battery.
- 3) hey Siri, please turn off yourself. I don't use it anymore. Keeping Siri always on is not a good thing.

This might help!

I LOVE IT!!!

Reviewed in India on 14 March 2021

Colour: Black Size name: 128GB Pattern name: iPhone 12 Mini **Verified Purchase**

Upgraded from iPhone 7. This really is a significant upgrade. I love this size. This is just perfect, you can use it single handedly, easily fits into pockets, reach every corner of the screen easily.

I was waiting for this size for so long and finally, after 2 months of buying, I'm writing a review. Just go for it if you want a small phone. In reality, it's not even that small, almost the size of iPhone 7, with full edge to edge display.

Feel: Ever used an iPhone 5 (or 4, 5s, SE)? Remember how boxy it was and how good it felt in your hand, with all those edges? Same with this phone. It feels so good to hold in hand with a glass body, it cannot be expressed in words.

Display: Phenomenal! OLED display with HDR stuff feels like on a different level. Darks feel dark, and not grays.

Sound: Stereo speakers, which really are loud and clear. iPhone 7 also had stereo speakers but on these, there's a noticeable difference in loudness, and sound quality.

Battery: Many people are criticizing battery, but I'm not a heavy user, most importantly I've been an iPhone user so battery life is decent enough. Much better than iPhone 7, obviously. Easily lasts more than a day. And with a 20w charger, it charges pretty fast too.

Security: Upgrading from TouchID to FaceID was a nice experience. I'm already in love with FaceID. It works every single time (except when you're wearing masks, you have to put it down a little bit to let it recognize your face).

Camera: I don't need to describe this. Do I? But let me tell you the night mode is superb!

Accessories: You only get a Type-C to lightning port cable, and a single apple sticker. That's it.

eSIM functionality works great, WiFi reception is good, call quality is awesome, as you'd expect. Long story cut short, everything is great when compared with iPhone 7 (which still was working awesome, except storage, and battery after 3 years). The only thing I miss is 3D Touch, and home button, lol.

To conclude, it's a great buy. I bought 128GB version in black color. Hope it's gonna last for a couple of years. Please hit helpful, if you found it helpful.
